Identities and Audiences in the Musical Raymond Knapp 2018-09-04 Issues of identity have always been central to the American musical in all its guises.

Who appears in musicals, who or what they are meant to represent, and how, over time, those representations have been understood and interpreted, provide the very basis for our engagement with the genre. In this third volume of the reissued Oxford Handbook of the American Musical, chapters focus on race, ethnicity, gender, and sexuality, regional vs. national identity, and the cultural and class significance of the musical itself. As important as the question of who appears in musicals are the questions of who watches and listens to them, and of how specific cultures of reception attend differently to the musical. Chapters thus address cultural codes inherent to the genre, in particular those found in traditional school theater programs.

How to Rent a Negro damali ayo 2006-09-01 A hilarious and satirical look at race relations that is almost too close for comfort, this pseudo-guidebook gives both renters and rentals "much-needed" advice and tips on technique. Reframing actual stories, techniques, requests, and responses gathered from the author's more than 30 years of research and experience, tips are provided in step-by-step outlines for renters to get the most for their money, and how rentals can become successful and wealthy, what they should wear, and topics of conversation to avoid. The book also serves up photo-dramatizations of some of the popular approaches covered in the book, handy tip-boxes, frequently asked questions for renters and rentals, a "How do I know if I'm being rented" quiz, a glossary of important terms, and "quickie" insta-rentals for those who need to rent on the go. Punctuated by quotes from former renters, and featuring rental diaries based on real encounters, this satire shocks and amuses, presenting a strikingly stark mirror of human relationships.

How Civic Action Works Paul Lichterman 2020-12-15 The ways that social advocates organize to fight unaffordable housing and homelessness in Los Angeles, illuminated by a new conceptual framework for studying collective action How Civic Action Works renews the tradition of inquiry into collective, social problem solving. Paul Lichterman follows grassroots activists, nonprofit organization staff, and community service volunteers in three coalitions and twelve organizations in Los Angeles as they campaign for affordable housing, develop new housing, or address homelessness. Lichterman shows that to understand how social advocates build their campaigns, craft claims, and choose goals, we need to move beyond well-established thinking about what is strategic. Lichterman presents a pragmatist-inspired sociological framework that illuminates core tasks of social problem solving, both contentious and noncontentious, by grassroots and professional advocates alike. He reveals that advocates' distinct styles of collective action produce different understandings of what is strategic, and generate different dilemmas for advocates because each style accommodates varying social and institutional pressures. We see, too, how patterns of interaction create a cultural filter that welcomes some claims about housing problems while subordinating or delegitimizing others. These cultural patterns help solve conceptual and practical puzzles, such as why coalitions fragment when members agree on many things, and what makes advocacy campaigns separate housing from homelessness or affordability from environmental sustainability. Lichterman concludes by turning this action-centered framework toward improving dialogue between social advocates and researchers. Using extensive ethnography enriched by archival evidence, How Civic Action Works explains how advocates meet the relational and rhetorical challenges of collective action.
