Broadcasting the End of Apartheid

Martha Evans 2014-07-15 South Africa came late to television; when it finally arrived in the late 1970s the rest of the world had already begun to boycott the country because of apartheid. While the ruling National Party feared the integrative effects of television, they did not foresee how exclusion from globally unifying broadcasts would gradually erode their power. South Africa was barred from participating in some of television's greatest global attractions (including sporting events such as the Olympics and

contests such as Miss World). With the release of Nelson Mandela from prison came a proliferation of large-scale live broadcasts as the country was permitted to return to international competition, and its re-admittance was played out on television screens across the world. These events were pivotal in shaping and consolidating the country's emerging post-apartheid national identity. Broadcasting the End of Apartheid assesses the socio-political effects of live broadcasting on South Africa's transition to democracy. Martha Evans argues that just as print media had a powerful influence on the development of Afrikaner nationalism, so the 'liveness' of television helped to consolidate the post-apartheid South African national identity.

The changes that take place outside of us also take place inside us. Without noticing, we discover ourselves adapting as we pass from one season to another. All the reflections provided in this book begin with biblical passages that mention each specific season or some event that occurs as part of the season. The passage is followed by a reflection, a Psalm response, questions for meditation and/or journaling, and prayers designed to nourish one's spirituality. Even so, we are secure in God's promise that we will be taken to heaven prior to His end-time judgments. BUT . . . Do the Lord's judgments begin with the peace treaty? Surprisingly, NO! The Bible does not tell us when we will be raptured, but it does tell us what must happen prior to that glorious event. There are no "hidden secrets" to understanding end-times prophecy. Caribbean Women's Migration Dorrel L. Green-Briggs 2022-10-06 Caribbean Women's Migration: Windrush Era Housing Experiences and Aspirations is a qualitative case-study analysis of eight London-based women. The main purpose of the research was to document the housing histories of each subject over half a century since their arrival and subsequent settlement in the United Kingdom. The study highlights several themes, including: • the exploration of Caribbean women's migration literature during the Windrush period (1948–1970); • racial discrimination as it relates to Caribbean housing access; • continued patterns of black and ethnic minority concentration and

segregation in inner city metropolitan areas. Caribbean Windrush women and men have strived to elevate their living standards and have shown resourcefulness in overcoming barriers and achieving their aspirations in acquiring property. They are now represented within the full spectrum of housing tenure. By documenting women's housing case-studies, this study gives a voice to Caribbean women who've been marginalized because they were women and dark skinned. Moreover, it outlines how future generations of people—black, white, and people of all nationalities and cultural affiliations—can work toward change in the United Kingdom.

humorous account of a man from rural Western Australia and his working career in the international oil business, from exploration in the harsh wildernesses of the Australian outback, Saharan Africa, jungles of Sumatra and Philippines, to the high-stakes corporate shenanigans in the heart of London. Often cantankerous and very 'Australian', Ian walks the reader through his life, from his earliest memories in 1932 up until his early retirement in 1989. He recounts his childhood with his many brothers and sisters in the West Australian wheatbelt, growing up in the hard times of the 1930's depression, school life in rural Australia and University in the 'big smoke' of Perth, Australia. Graduating with a degree in Geology, Ian narrates how he sets off on an

The Ages of Homer Jane B. Carter
1998-04 "This is the most exciting and diverse collection of essays on Homer to emerge in the past twenty-five years.... There is no other volume like this in scope or ambition or in the erudition of its contributors. It is one of a kind."
—Richard P. Martin, Professor of Classics, Princeton University
"Dedicated to the...archaeologist and classical scholar Emily Vermeule, this splendidly illustrated volume takes a special place among the numerous studies devoted to the Homeric past.... To sum it up, this is a valuable collection of

penetrating studies about Homer, with interesting insights into early Greek art." —Journal of Indo-European Studies "By any standard an outstanding [collection], and among its thirty-one articles are nearly a dozen that will be appreciated as real advances in the discussion of one Homeric problema or another—perhaps an unprecedented percentage.... The University of Texas Press has produced a volume worthy of its ceremonial function in the career of a tremendously influential scholar and educator. It is lavish, and very attractive."
—Bryn Mawr Classical Review "Will be required reading for serious students of the Iliad, the Odyssey, and the Homeric world." —Choice Homer's Iliad and Odyssey have fascinated listeners and readers for over twenty-five

centuries. In this volume of original essays, collected to honor the distinguished career of Emily T. Vermeule, thirty-four leading experts in Homeric studies and related fields provide up-to-date, multidisciplinary accounts of the most current issues in the study of Homer. The book is divided into three sections. The first section treats the Bronze Age setting of the poems (around 1200 B.C.), using archaeological evidence to reveal how poetic memory preserves, distorts, and invents the past. The second section explores the early Iron Age, in which the poems were written (c. 800-500 B.C.), using the strategies of comparative philology and mythology, literary theory, historical linguistics, anthropology, and iconography to determine how the poems took shape.
