**The Stack** Benjamin H. Bratton 2016-02-19 A comprehensive political and design theory of planetary-scale computation proposing that The Stack—an accidental megastructure—is both a technological apparatus and a model for a new geopolitical architecture. What has planetary-scale computation done to our geopolitical realities? It takes different forms at different scales—from energy and mineral sourcing and subterranean cloud infrastructure to urban software and massive universal addressing systems; from interfaces drawn by the augmentation of the hand and eye to users identified by self—quantification and the arrival of legions of sensors, algorithms, and robots. Together, how do these distort and deform modern political geographies and produce new territories in their own image? In *The Stack*, Benjamin Bratton proposes that these different genres of computation—smart grids, cloud platforms, mobile apps, smart cities, the Internet of Things, automation—can be seen not as so many species evolving on their own, but as forming a coherent whole: an accidental megastructure called The Stack that is both a computational apparatus and a new governing architecture. We are inside The Stack and it is inside of us. In an account that is both theoretical and technical, drawing on political philosophy, architectural theory, and software studies, Bratton explores six layers of The Stack: Earth, Cloud, City, Address, Interface, User. Each is mapped on its own terms and understood as a component

within the larger whole built from hard and soft systems intermingling—not only computational forms but also social, human, and physical forces. This model, informed by the logic of the multilayered structure of protocol “stacks,” in which network technologies operate within a modular and vertical order, offers a comprehensive image of our emerging infrastructure and a platform for its ongoing reinvention. The Stack is an interdisciplinary design brief for a new geopolitics that works with and for planetary-scale computation. Interweaving the continental, urban, and perceptual scales, it shows how we can better build, dwell within, communicate with, and govern our worlds. [thestack.org](http://thestack.org)

contemporary South Asian dance music has played in the formation of a new urban cultural politics.

The Worlding Project Christopher Leigh Connery 2007-10-30 Globalization discourse now presumes that the “world space” is entirely at the mercy of market norms and forms promulgated by reactionary U.S. policies. An academic but accessible set of studies, this wide range of essays by noted scholars challenges this paradigm with diverse and strong arguments. Taking on topics that range from the medieval Mediterranean to contemporary Jamaican music, from Hong Kong martial arts cinema to Taiwanese politics, writers such as David Palumbo-Liu, Meaghan Morris, James Clifford, and others use innovative cultural studies to challenge the globalization narrative with a new and trenchant tactic called “worlding.” The book posits that world literature, cultural studies, and disciplinary practices must be “worlded” into expressions from disparate critical angles of vision, multiple frameworks, and field practices as yet emerging or unidentified. This opens up a major rethinking of historical “givens” from Rob Wilson’s reinvention of “The White Surfer Dude” to Sharon Kinoshita’s “Deprovincializing the Middle Ages.” Building on the work of cultural critics like Edward Said, Gayatri Spivak, and Kenneth Burke, *The Worlding Project* is an important manifesto that aims to redefine the aesthetics and politics of postcolonial globalization with alternative forms and frames of global becoming.

**Reading Fiction in Antebellum America** James L. Machor 2011-04-01 James L. Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War. Machor takes four antebellum authors—Edgar Allan Poe, Herman Melville, Catharine Sedgwick, and Caroline Chesebro'—and analyzes how their works were published, received, and interpreted. Drawing on discussions found in book reviews and in private letters and diaries, Machor examines how middle-class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth-century America. Through careful analysis, Machor illuminates how the reading practices of nineteenth-century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century. What Machor reveals is that these authors were received in ways strikingly different from how they are currently read, thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time. Machor deftly combines response and reception criticism and theory with work in the history of reading to engage with groundbreaking scholarship in historical hermeneutics. In so doing, Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences

and how they impacted authors' conceptions of their own readership.

*Nevertheless, We Persisted In This Together* Media 2018-09-04 A powerful collection of essays from actors, activists, athletes, politicians, musicians, writers, and teens, including Black Lives Matter founder Patrisse Cullors, actress Alia Shawkat, actor Maulik Pancholy, poet Azure Antoinette, teen activist Gavin Grimm, and many, many more, each writing about a time in their youth when they were held back because of their race, gender, or sexual identity--but persisted. "Aren't you a terrorist?" "There are no roles for people who look like you." "That's a sin." "No girls allowed." They've heard it all. Actress Alia Shawkat reflects on all the parts she was told she was too "ethnic" to play. Former NFL player Wade Davis recalls his bullying of gay classmates in an attempt to hide his own sexuality. Teen Gavin Grimm shares the story that led to the infamous "bathroom bill," and how he's fighting it. Holocaust survivor Fanny Starr tells of her harrowing time in Aushwitz, where she watched her family disappear, one by one. What made them rise up through the hate? What made them overcome the obstacles of their childhood to achieve extraordinary success? How did they break out of society's limited view of who they are and find their way to the beautiful and hard-won lives they live today? With a foreword by Minnesota senator and up-and-coming Democratic party leader Amy Klobuchar, these essays share deeply personal stories of resilience, faith, love, and, yes, persistence. An International Latino Book Award Winner A National Council for Social Studies Selection "Each tale is a soulful testament to the endurance of the human spirit and reminds readers that they are not alone in their search for self. An unflinchingly honest book that should be required reading for every young person in America."—Kirkus, Starred review "An invaluable collection of snapshots of American society."—VOYA, Starred review "[A] gem of a book. . . There's a lot to study here and talk about on the way to becoming kinder,

more empathetic, and most important, compassionate."—Booklist "Readers encountering injustice in their own lives may be compelled to take heart--and even action."—Publishers Weekly "A powerful collection of voices."—SLJ "The sheer variation in writing styles, subject-matters, and structure to these narratives provides readers with inspiration in assorted forms and a complex interpretation of what it means to persist."—The Bulletin

Reel Time Robert Morris Seiler 2013 In this authoritative work, Seiler and Seiler argues that the establishment and development of moviegoing and movie exhibition in Prairie Canada is best understood in the context of changing late-nineteenth-century and early-twentieth-century social, economic, and technological developments. From the first entrepreneurs who attempted to lure customers in to movie exhibition halls, to the digital revolution and its impact on moviegoing, *Reel Time* highlights the pivotal role of amusement venues in shaping the leisure activities of working- and middle-class people across North America. As marketing efforts, the lavish interiors of the movie palace and the romantic view of the local movie theatre concealed a competitive environment in which producers, exhibitors, and distributors tried to monopolize the industry and drive their rivals out of business. The pitched battles and power struggles between national movie theatre chains took place at the same time that movie exhibitors launched campaigns to reassure moviegoers that theatres were no longer the "unclean and immoral places of amusement" of yesteryear. Under the leadership of impresarios, the movie theatre rose up from these attacks to become an important social and cultural centre - one deemed "suitable for women and children." An innovative examination of moviegoing as a social practice and movie exhibition as a commercial

enterprise, Reel Time depicts how the industry shaped the development of the Canadian Prairie West and propelled the region into the modern era. Robert M. Seiler is associate professor emeritus in communication and culture at the University of Calgary. Tamara P. Seiler is professor emeritus of Canadian studies at the University of Calgary. Reel Time is their second joint publication.

**Publics, Politics and Participation** Seteney Shami 2009

Though it is rarely explicitly articulated, many believe that there is no "public" in the Middle East. Scholarship on the Middle East and North Africa almost always engages with politics—a prominent focus of this region—yet the assumed absence of public spaces and fora has led many to think that debate, consensus, and concerted social action are antithetical to the cultural, religious, and national heritage of the region. It is a mistake to exclude the public dimension from the study of processes in this region. Recent studies have demonstrated not only the critical importance of the public in everyday practices of the MENA region, but they have also shown how the term and notion of the public sphere can be used productively to advance understandings of collective life. The first section of this volume offers alternative conceptions of the public sphere through rich and innovative theoretical analysis. Philosophical investigations focus on the role of collective action, the relationship between nationalism and democracy, and the notions of the public employed by socioreligious movements. The second section addresses a wide range of counter-hegemonic discourses and practices that enable the public sphere, such as memoirs, testimonies, strategies of surveillance, the Tehran bazaar, and the movements of migratory workers. The third section provides empirical accounts of the way in which mutual communication through technology has vitally expanded the notion of the public

in the MENA region. In conclusion, conflict and resistance are shown to be generative forces in public discourse and debate and in the production of national publics.

Virtual Reality Melanie Chan 2014-01-16 The idea of virtual realities has a long and complex historical trajectory, spanning from Plato's concept of the cave and the simulacrum, to artistic styles such as Trompe L'oeil, and more recently developments in 3D film, television and gaming. However, this book will pay particular attention to the time between the 1980s to the 1990s when virtual reality and cyberspace were represented, particularly in fiction, as a wondrous technology that enabled transcendence from the limitations of physical embodiment. The purpose of this critical historical analysis of representations of virtual reality is to examine how they might deny, repress or overlook embodied experience. Specifically, the author will contend that embodiment is a fundamental aspect of immersion in virtual reality, rather than something which is to be transcended. In this way, the book aims to challenge distorted ideas about transcendence and productively contribute to debates about embodiment and technology.

**Tuxedo Fashions** Raphael McCarn 2021-08-04 A tux is a fancy black suit that you might wear, along with a bow tie, to your senior prom or your wedding. The word tux is a common North American shorthand for a tuxedo. If you're invited to an elegant party that's "black tie only," that means you're expected to wear a long, dressy gown or a tux. You have seen the Tuxedos being worn by many including your favorite movie stars like Jackie Chan as he acted in *The Tuxedo*, Fred Aster in the early films, or other fictitious movie characters like James Bond. You may have even worn one before, during, your prom event, or as a groomsman or had even worn it during your wedding day. But have we know where this very American formal wear originated? Or why it is called the Tuxedo?

*Twelve Years A Slave, Illustrated Edition* Solomon Northup 2014-04-08 Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.
