A to Z of Earth Scientists, Updated Edition Alexander Gates 2019-10-01 A to Z of Earth Scientists, Updated Edition is a comprehensive A to Z reference of Earth scientists in areas including plate tectonics, climate change, and planetary science. Designed for high school through early college students, this is an ideal reference of notable Earth scientists from the 19th

century to the present. Featuring nearly 200 entries and 100 black-and-white photographs, this title uses the device of biography in order to put a human face on science—a method that adds immediacy to the prose for the high school student who may have an interest in pursuing a career in the earth sciences. People covered include: James Hutton (1726–1797) William Smith (1769–1839) Charles Lyell (1797–1875) Mary Anning (1799–1847) Inge Lehmann (1888–1993) Walter Alvarez

(1911–1988) Doris Malkin Curtis (1914–1991) Marie Tharp (1920–2006) David Keeling (1928–2005) Dawn Wright (1961–present)

Dictionary of World Biography Barry Jones 2017-05-05 Jones, Barry Owen (1932–). Australian politician, writer and lawyer, born in Geelong. Educated at Melbourne University, he was a public servant, high school teacher, television and radio performer, university lecturer and lawyer before serving as a Labor MP in the Victorian Parliament 1972–77 and the Australian House of Representatives 1977–98. He took a leading role in reviving the Australian film industry, abolishing the death penalty in Australia, and was the first politician to raise public awareness of global warming, the 'post-industrial' society, the IT revolution, biotechnology, the rise of 'the Third Age' and the need to preserve Antarctica as a wilderness. In the Hawke Government, he was Minister for Science 1983–90, Prices and Consumer Affairs 1987, Small Business 1987–90 and Customs 1988–90. He became a member of the Executive Board of UNESCO, Paris 1991–95 and National President of the Australian Labor Party 1992–2000, 2005–06. He was Deputy Chairman of the Constitutional Convention 1998. His books include *Decades of Decision 1860– (1965)*, *Joseph II (1968)*, *Age of Apocalypse (1975)*, and he edited *The Penalty is Death (1968)*. *Sleepers, Wake!: Technology and the Future of Work* was published by Oxford University Press in 1982, became a bestseller and has been translated into Chinese, Japanese, Korean, Swedish and braille. The fourth edition was published in 1995. *Knowledge Courage Leadership*, a collection of speeches and essays, appeared in 2016.

You Have Seen Their Faces Erskine Caldwell 1995 In the middle years of the Great Depression, Erskine Caldwell and photographer Margaret Bourke-White spent eighteen months traveling across the back roads of the Deep South--from South Carolina to Arkansas--to document the living conditions of the sharecropper. Their collaboration resulted in *You Have Seen Their Faces*, a graphic portrayal of America's desperately poor rural underclass. First published in 1937, it is a classic comparable to Jacob Riis's *How the Other Half Lives*, and James Agee and Walker Evans's *Let Us Now Praise Famous Men*, which it preceded by more than three years. Caldwell lets the poor speak for themselves. Supported by his commentary, they tell how the tenant system exploited whites and blacks alike and fostered animosity between them. Bourke-White, who sometimes waited hours for the right moment, captures her subjects in the shacks where they lived, the depleted fields where they plowed, and the churches where they worshipped.

The Long Revolution Raymond Williams 2001-03-02 Raymond Williams, whose other works include *Keywords*, *The Country and the City*, *Culture and Society*, and *Modern Tragedy*, was one of the world's foremost cultural critics. Almost uniquely, his work bridged the divides between aesthetic and socio-economic inquiry, between Marxist thought and mainstream liberal thought, and between the modern and post-modern world. When *The Long Revolution* first appeared in 1961, much of the acclaim it received was based on its prescriptions for Britain in the '60s, which form a relatively brief final section of the whole. The body of the book has since come to be recognized as one of the foundation documents in the cultural analysis of English-speaking culture. The "long revolution" of the title is a cultural revolution, which Williams sees as having unfolded alongside the democratic revolution and the industrial revolution. With this book, Williams led the way in recognizing the importance of the growth of the popular press, the growth of standard English, and the growth the reading public in English-speaking culture and in Western culture as a whole. In addition, Williams's discussion of how culture is to be defined and analyzed has been of

considerable importance in the development of cultural studies as an independent discipline. Originally published by Chatto & Windus, *The Long Revolution* is now available only in this Broadview Encore Edition. *Meanwhile, Elsewhere* Cat Fitzpatrick 2021-06-11 Fiction. In 2017, *Meanwhile, Elsewhere*, a large, strange, and devastatingly touching anthology of science fiction and fantasy from transgender authors was released onto the world. The collection received rave acclaim and won the ALA Stonewall Book Award Barbara Gittings Literature Award. When its original publisher went out of business, the book fell out of print, and LittlePuss Press is now pleased to bring this title back to life for a new audience of readers. What is *Meanwhile, Elsewhere: Science Fiction and Fantasy From Transgender Writers*? It is the #1 post-reality generation device approved for home use. It will prepare you to travel from multiverse to multiverse. No experience is required! Choose from twenty-five preset post-realities! Fashion Jennifer Craik 2009-08-01 Fashion is everywhere. It is one of the main ways in which we present ourselves to others, signaling what we want to communicate about our sexuality, wealth, professionalism, subcultural and political allegiances, social status, even our mood. It is also a global industry with huge economic, political and cultural impact on the lives of all of us who make, sell, wear or even just watch fashion. *Fashion: the key concepts* presents a clear introduction to the complex world of fashion. The aim throughout is to present a comprehensive but also accessible and provocative analysis. Readers will discover how the fashion industry is structured and how it thinks, the links between catwalk, celebrity branding, media promotion and mainstream retail, how clothes mean different things in different parts of the world, and how popular culture influences fashion and how fashion shapes global culture. Illustrated with a wealth of photographs, the text is further enlivened with over 30 detailed and rich case studies - ranging across topics as diverse as the meaning of black in fashion, the rise of celebrity branding, the cult of thinness, the politics of veiling, the eroticism of shoes and the power of cosmetics. Features: § Boxed chapter overviews open each chapter § Bullet points summarizing key ideas conclude each chapter § Chapter discussions are illustrated with integrated case material § Each chapter is supported by extended Case Studies § Key words are highlighted in chapters and defined in an extensive Glossary § Further Reading guides the reader to other literature § A timeline of Fashion Milestones provides a chronology of major events in the history of fashion

Twelve Years A Slave, Illustrated Edition Solomon Northup 2014-04-08 Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Removing the emperor's clothes: Australia and tobacco plain packaging Simon Chapman 2013-12-01 In December 2012, Australia became the first nation in the world to require all tobacco products to be sold in standard 'plain' packs under the leadership of the then Health Minister Nicola Roxon. Tobacco companies have had global apoplexy about the law. Humiliated in the Australian High Court with a 6-1 defeat, their hopes now rest with deterring other nations from following suit by pursuing international trade law action. With a combined 50 years of research and advocacy experience in tobacco control, Simon Chapman and Becky Freeman set out the evidence for the importance of plain packaging in striking at the heart of what remains of tobacco advertising. They examine the history of the idea, the tobacco industry's frantic efforts to derail it, and the early evidence for its impact. Most importantly, they give tools to policy makers in other countries wanting to make the best case for plain packaging and to defend it from the inevitable attacks that will follow.

The Philosophical Journey, an Interactive Approach

William F. Lawhead 2022 "Socrates once complained in the Protagoras that eloquent orators and books are alike in that they provide massive amounts of information, "but if one asks any of them an additional question . . . they cannot either answer or ask a question on their own account." As I wrote this book, my challenge was to see to what degree I could provide a counterexample to Socrates' claim. Of course, Socrates is correct: There is no substitute for live philosophical conversations and debates. However, as you get acquainted with this book, you will find that it does ask you questions and provokes you to ask questions in turn. Instead of simply presenting information for you to passively absorb, its many exercises require your active involvement, and some will even provide the opportunity for you to dialogue with your friends about the philosophical issues discussed. For this reason, I chose the title *The Philosophical Journey: An Interactive Approach* -- *Coup D'état in America* Michael Canfield 1975 Acetate overlay in pocket. Includes index. Bibliography: p. 307-308.

Weddings and Wives Dale Spender 1994 In this book Dale Spender brings together the views of some remarkable women writers in challenging and provocative insights. The social revolution that has taken place over the last 30 years in relation to weddings and wives from biblical texts to New Age ceremonies is discussed. Contributors include Nadia Wheatley, Susan Mitchell, Kate Grenville and Kaz Cooke.

Laser Science and Technology A.N. Chester 2012-12-06 The conference "Laser Science and Technology" was held May 11-19, 1987 in Erice, Sicily. This was the 12th conference organized by the International School of Quantum Electronics, under the auspices of the "Ettore Majorana" Center for Scientific Culture. This volume contains both the invited and contributed papers presented at the conference, covering current research work in two areas: new laser sources, and laser applications. The operation of the first laser by Dr. Theodore Maiman in 1960 initiated a decade of scientific exploration of new laser sources. This was followed by the decade of the 1970s, which was characterized by "technology push" in which the discoveries of the 1960s were seeking practical application. In the 1980s we are instead seeking "applications pull," in which the success and rapid maturing of laser applications provides both inspiration and financial resources to stimulate additional work both on laser sources and applications. The papers presented in these Proceedings attest to the great vitality of research in both these areas: New Laser Sources. The papers describe current developments in ultra violet excimer lasers, X-ray lasers, and free electron lasers. These new lasers share several characteristics: each is a potentially important coherent source; each is at a relatively short wavelength (below 1 micrometer); and each is receiving significant development attention today.

Figuring Animals M. Pollock 2016-10-03 This is a collection of fifteen essays which expose weaknesses in western epistemological frames of reference that for centuries have limited our views, and, thus, our experiences of animal being, including our own. The volume contributes to current discussions of new ways of seeing the other inhabitants of this world and more effective ways of sharing the world with them. The contributors draw on and complement the growing field of ecocriticism, but because the contributors draw on an array of disciplinary and cultural perspectives, it will appeal to a wide audience, ranging from literary scholars, philosophers, art historians, anthropologists, and cultural historians (including graduate and undergraduate students in all these disciplines), to laypersons interested in nature writing and environmental issues.

The Uses of Literacy Richard Hoggart 2017-09-29 This pioneering work examines changes in the life and values of the English working class in response to mass media. First published in 1957, it mapped out a new methodology in cultural studies based around interdisciplinarity and a concern with how texts-in this case, mass publications-are stitched into the patterns of lived experience. Mixing personal memoir with social history and cultural critique, *The Uses of Literacy* anticipates

recent interest in modes of cultural analysis that refuse to hide the author behind the mask of objective social scientific technique. In its method and in its rich accumulation of the detail of working-class life, this volume remains useful and absorbing. Hoggart's analysis achieves much of its power through a careful delineation of the complexities of working-class attitudes and its sensitivity to the physical and environmental facts of working-class life. The people he portrays are neither the sentimentalized victims of a culture of deference nor neo-fascist hooligans. Hoggart sees beyond habits to what habits stand for and sees through statements to what the statements really mean. He thus detects the differing pressures of emotion behind idiomatic phrases and ritualistic observances. Through close observation and an emotional empathy deriving, in part, from his own working-class background, Hoggart defines a fairly homogeneous and representative group of working-class people. Against this background may be seen how the various appeals of mass publications and other artifacts of popular culture connect with traditional and commonly accepted attitudes, how they are altering those attitudes, and how they are meeting resistance. Hoggart argues that the appeals made by mass publicists—more insistent, effective, and pervasive than in the past—are moving toward the creation of an undifferentiated mass culture and that the remnants of an authentic urban culture are

being destroyed. In his introduction to this new edition, Andrew Goodwin, professor of broadcast communications arts at San Francisco State University, defines Hoggart's place among contending schools of English cultural criticism and points out the prescience of his analysis for developments in England over the past thirty years. He notes as well the fruitful links to be made between Hoggart's method and findings and aspects of popular culture in the United States.

The Blackwell Companion to the Study of Religion Robert A. Segal 2009-02-04 This prestigious Companion offers the most comprehensive survey to date of the study of religion. Featuring a team of international contributors, and edited by one of the most widely respected scholars in the field, *The Blackwell Companion to the Study of Religion* provides an interdisciplinary and authoritative guide to the subject. Examines the main approaches to the study of religion: anthropology, the comparative method, economics, literature, philosophy, psychology, sociology, and theology. Also covers a diverse range of topical issues, such as the body, fundamentalism, magic, and new religious movements. Consists of 24 essays written by an outstanding team of international scholars. Reviews, within each chapter, an outline of a particular subfield and traces its development up to the present day. Debates how the discipline may look in the future. Represents all the major issues, methods and positions in the field.
